

Lab Safety Unit Project

Create your own lab safety bumper sticker!

Working in the lab is a fun and exciting way to make scientific discoveries, but with all the things that could potentially go wrong we must ALWAYS have lab safety in mind! Create a fun bumper sticker to raise lab safety awareness!

For this assignment you will be creating your own lab safety bumper sticker.

- Pick your favorite lab safety rule and use your creativity to make a bumper sticker that clearly and obviously portrays it.
- Have fun with it! Make sure it's colorful and unique.
- Label any pieces of lab equipment on your sticker to make the situation/ diagrams more understandable.

On the back of your bumper sticker:

- Write the lab safety rule you chose to portray on your sticker.
- Outline a situation where this rule can be applied.
- Explain what could happen if this rule is not followed.
- Explain how you would handle an accident if it happened.

Lab Safety Unit Project
