

# Scientific Method Bell Work – Student Edition

Below is an image of a car the does not start.

1. Write three **inferences** on why the car won't start.

---

---

---

2. If you are the owner of the car, what are the steps you would take to solve this kind of problem? List down **at least 5** steps that you would do in order.

---

---

---

---

---

---

3. How does following a series of steps make problem-solving easier?

---

---

4. How do you think scientists find solutions to scientific problem?

---

---
