

Artificial Selection

Exit Quiz – Student Edition

Place the statements below into the correct part of the Venn diagram.

Traits inherited from parents

Survival of the Fittest

Occurs without human interference

Desired traits selected by humans

Examples: animals in the wild (peppered moth or finch beaks)

Favorable traits increase species chance for survival

Results in change in genetic traits in a species

Traits do not always increase chance for survival

Examples: dogs, livestock, or agriculture

Change occurs over many generations
